# New York Stock Market

New York, March 3.—Operators in Mocks still found their advantage today in working for higher prices. The
supply of stocks for sale was increased as the level of the market rose and the
profits on speculative holdings became
more attractive. The effect of tills
was to cause some hesitancy in the
speculative movement, but the manner in which the profit-taking was absorbed was regarded as encouraging
in itself. United States Steel was tile
spine of the market. That stock was
taken in very large amounts to the
accompaniment of various rumors and
suggestions put out without stated authority. For instance, it was asserted that extra dividends would be deciared in successive quarters of 1-1
per cent. Conditions in the steel trade
were declared to be improving and
large orders from the railroads for
new equipment were adduced as specific evidence of this.

The strength shown for two days in
the outside market of the stocks of
the American Tobacco and the Standard Oil Companies was made much
of as proving that inside interests
in these corporations were free from
anxiety over the outcome of the government suits against them.

The mood of hopefulness was fostered by the increasing number of
bond issues being offered by bankers.
These offerings were taken as an index of an improvement in the investment situation. Abundant money conditions are reported from Paris, but
there were heavy withdrawals of gold
for export from the Bank of England
to-day. February entries of imports at
the New York custom house were
\$11,000,000 in excess of February last
top were the courty of the
merchandise movement.

The prevailing mood of the speculation was seen in the ignoring of such
items of news as the calling of a
general strike in Philadelphia and the
rejection of the Baltimore and Ohio
offer to its employes of wage terms.
The destructive storm blockades in the
New York custom house were
\$11,000,000 in excess of February last
topthe destructive storm blockades in the
halmene. Neither was any attention

Futures opened quiet at a decline of \$329 points on disappointing cables. The weather in the Western cotton belt is still dry. Traders on the bull side were not inclined to take on fresh lines with Liverpeol, calling a halt in its advance. From the middle of the morning on the market had a very good tone, and prices showed a tendency to advance on the surprising showing made by Heater's figures on the into-sight was put at 5,59,225 bales, the smallest total in ten years. Showed a tendency to advance on the surprising showing made by Heater's figures on the into-sight was put at 5,59,225 bales, the smallest total in ten years. Showed a tendency to advance to the cod of February in the Sully year. The market was also strengthened by the minus correction of 11,330 bales in the Houston stock, and by telegrams from New York stating the Brown and other Southern bulls were heavy buyers of May and July. Early in the afterneon session the market stood at the highest of the day, \$67 points up on the old crop months. From this level there was a slump to practically the lowest prices of the day again on heavy profit-taking from the long side and renewed short selling from the bears. The latter based their trading on reports of curtailment among Southern and Austrian mills. The market closed steady at a net decline of 5670 points. If you haven't read our booklet on trusts, let us send you one,  $\Lambda$  request on a postal will bring it.

A gentleman of large means stated to us last Saturday that he had read it and was convinced that there were great advantages in having a strong Trust Company execute a will, and that he intended to write his will and name this Company his Executor.

Every man who owns property should make a will. The trouble is many good men delay doing so.

Business of every nature placed in our care treated confidentially.
